Comments:

I am located on [82 high point drive \(LOT # 9\)](#) I have a basin in my backyard very close to the house foundation, one walking trail and part of the easement to access the basin. I do not know that the plan in the start was that way or along the way some changes were approved or executed improperly. Now the town is going to take over the roadways and infrastructure. I request the town officials to keep the maintenance of these in the conversation. summer time if not maintained then water accumulates in the basin with grass and other bushes, mosquitoes grow up very quickly and creates health risk in the neighbourhood. Basin is not fenced and walking trail is not marked or fenced clearly for the maintenance reasons. I hope this my concern is considered. thanks.
